REDEFINE YOUR LIMITS

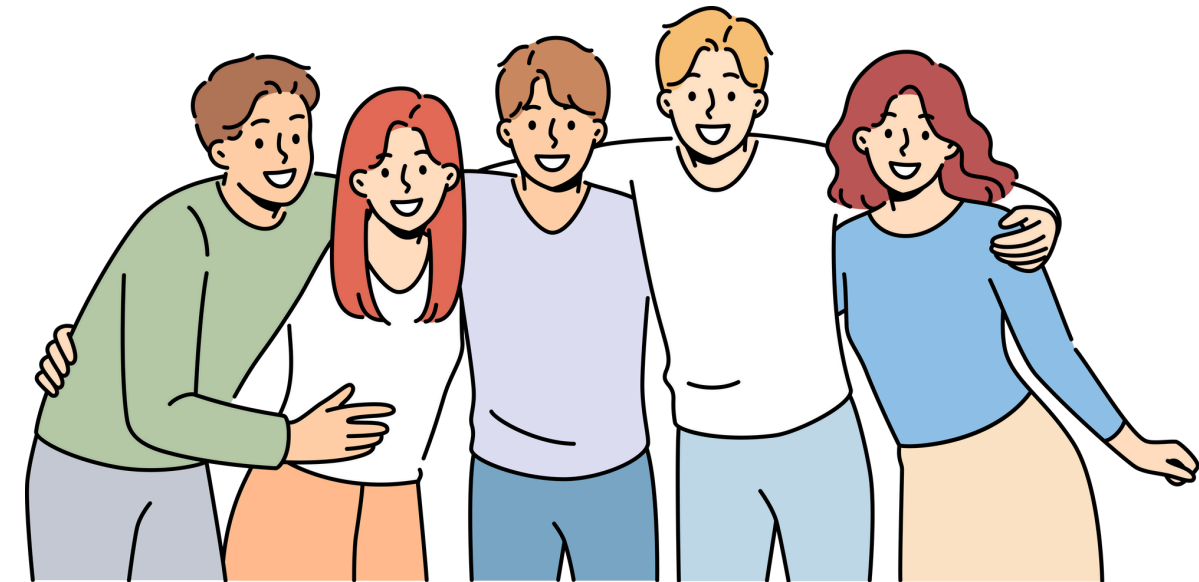

WEB DEVELOPMENT

ABOUT US

Welcome to IT Developer, your one-stop destination for online education and study materials. We take pride in offering a wide range of courses, including Java, Python, web development, .NET, and more, to help individuals enhance their IT skills and advance their careers. Additionally, we are committed to supporting school students by providing study materials for ICSE & CBSE boards, including previous years' question papers with solutions.

Our mission is to make learning accessible and convenient for everyone, and we are dedicated to empowering our students with the knowledge and resources they need to succeed. Join us at **IT Developer** and take your first step towards a brighter future.

INTRODUCTION

- Update your LinkedIn profiles
- For a **Web Development internship**, you will need to complete all the tasks for successful completion of the internship.
- Maintain a separate GitHub repository(name **IT DEVELOPER** for all the tasks) and share the link of the GitHub repo in the **task submission form(it will be given later through email)**.
- You can refer to online resources such as Google Search and read tutorials. Watch videos(For Help).

SUBMISSION

1

A TASK SUBMISSION FORM will be shared later through email. Till then please continue your task.

2

A video need to be created to show case your work, demo of your effort.

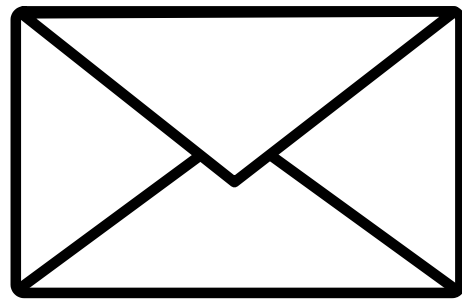

3

The video can be hosted on LinkedIn for proof of your work and build credibility among your peers. You can tag **IT DEVELOPER** in such posts.

4

Please add #ITDeveloper in each of your task video posting son LinkedIn, Additionally, you can also add hashtags such as #internship #webdevelopment. for more reach and visibility.

Online Quiz Platform

Task List

For a Web Development internship, you will need to complete all the tasks for successful completion of the internship.

Project Overview & Key Features

Objective: Create a fully functional **Online Quiz Platform** that supports secure user access, dynamic question loading, timing mechanisms, and admin-level quiz control.

Core Features:

- User Login – Users sign in to access quizzes
- Multiple Choice Questions – Pulled from a database
- Timed Quizzes – Countdown for each quiz attempt
- Leaderboard – Ranking based on scores and time
- Admin Dashboard – Create/edit/delete quizzes and questions

Authentication & Role Management

User Roles

- Admin: Manages quizzes, questions, and leaderboard visibility
- User: Attempts quizzes, views scores and leaderboard

Authentication Flow

- Secure registration and login
- After login, redirect based on role:
 - Admin → Admin Dashboard
 - User → Quiz List or Homepage

Profile Area (Optional)

- View attempted quizzes, scores, and time taken

Quiz Creation & Management (Admin Panel)

Quiz Management Features

- Create a new quiz:
 - Title, subject/topic
 - Total questions
 - Time limit
 - Difficulty level

- Edit/Delete quiz entries

Question Bank Creation

- For each quiz:
 - Add multiple-choice questions (minimum 4 options)
 - Mark correct option(s)
 - Add explanation (optional)

Database Schema (Conceptual)

- Tables: Quizzes, Questions, Options, UserAttempts, Scores

User Flow – Taking the Quiz

Quiz Listing Page

- Display available quizzes with:
 - Title
 - Subject
 - Time limit
 - Difficulty
 - “Start Quiz” button

Quiz Attempt View

- One question per screen or all at once
- Options as radio buttons or cards
- Timer visible (countdown)

After Submission

- Auto-calculate score
- Show correct answers and user responses (optional)
- Save results to database

Leaderboard & Results Handling

Leaderboard System

- Rank users based on:
 - Score
 - Time taken (tie-breaker)
- Leaderboard visible per quiz or global
- Display top 10 scorers or full list with pagination

Results Breakdown (User Dashboard)

- View past attempts with:
 - Score
 - Percentage
 - Time taken
 - Date of attempt

Admin Monitoring Tools

- See quiz stats: average score, number of attempts, most missed question, etc.

UI, Testing & Deployment Checklist

UI Suggestions

- Admin Dashboard: Sidebar navigation, data tables
- User Side: Clean quiz cards, timer, buttons for "Submit" and "Next"

Testing Requirements

- ✓ Quiz timer enforces timeouts
- ✓ Score calculation works correctly
- ✓ Leaderboard updates in real time
- ✓ Admin panel protects data and restricts access

Deployment Guidelines

- Secure API with role validation
- Store quiz data safely (no question leakage)
- Setup daily database backups
- Document quiz creation and usage instructions

ASK US FOR HELP!

1

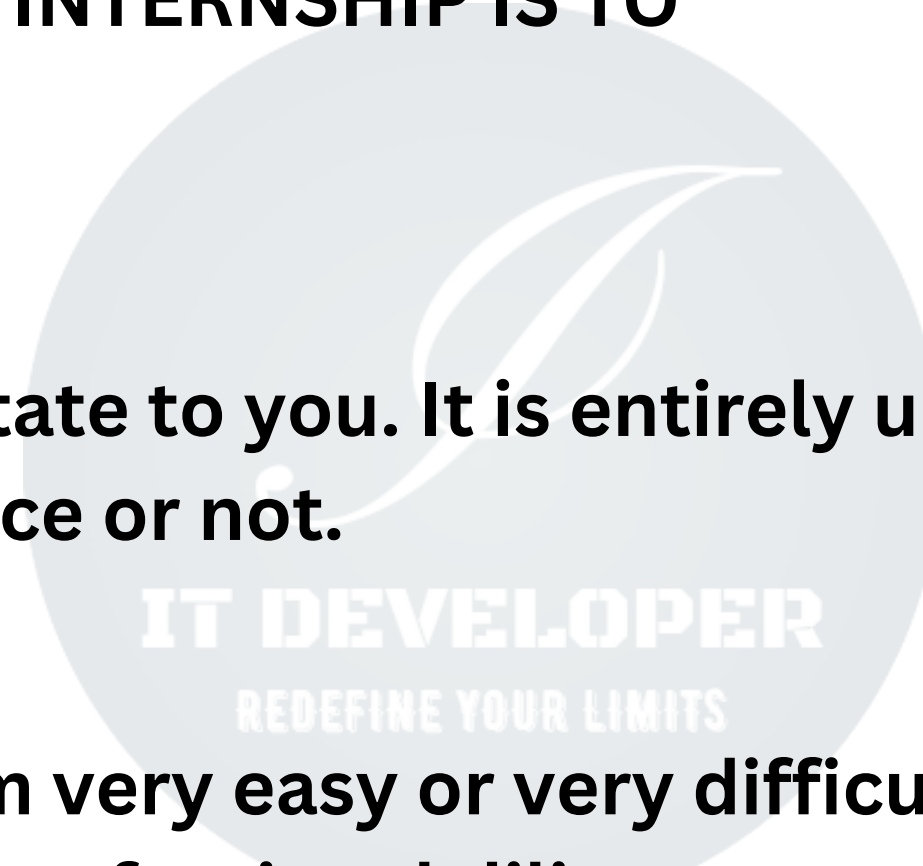

****THE PURPOSE OF THIS INTERNSHIP IS TO LEARN AND GROW**

2

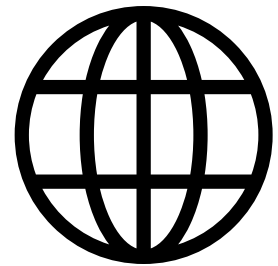

We have no desire to dictate to you. It is entirely up to you whether you seek guidance or not.

3

The given tasks may seem very easy or very difficult. We expect you to approach the tasks with professional diligence and give them the attention they deserve.
